ACCEPTS REPORT OF CONFEREES

Forecasts Overriding of Veto If Disapproval

25% TAX REFUND

Measure Provides Publicity Of Taxes Paid

WASHINGTON, May 26.—The new compromise tax bill today received final congressional approval by the house. The vote was 376 to 9.

It now goes to the president. Passed by the senate Saturday by a 60 to 6 vote the house added its overwhelming endorsement to the measure forecasting easy success in overriding the veto, if President Coolidge disapproves it.

Immediate Refund The technical action came on a vote, to accept the report of the conferees who drafted the compromise.

The measure provides an immediate 25 per cent reduction in taxes due and payable this year on 1923 incomes, the democratic normal tax rates ranging from two to six per cent with surtaxes ranging from one per cent on \$10,000 to 40 per cent on \$500,000, increased estate and gift taxes and a provision authorizing publicity of the amount of taxes paid by individuals and corporations but not of their returns.

Oppose Bill All the nine voting against the bill were republicans. They were: Fenn, Merritt and Tilton, Conn.; Hill, Mississippi; McFadden and Phillips, Penna.; Mills and Wainwright, New York and Moores, Indiana.

Many Slow to Sign Duff Petitions, Report

The Duff railway petitions being circulated by a committee from the Chamber of Commerce and Shipping asking Port Arthur people to declare themselves as favoring the placing of the terminus of the rail line here as planned will not be called in for several days yet it was announced at the chamber this morning.

That even with the intensive circulation campaign which has been given the petitions there are still a number who have not had an opportunity to sign was the opinion of the committee. The committees are still at work.

Y. M. B. L. to Convene At Lakeview Tuesday

With practically all their members returned from recent conventions, and several items of business scheduled to come before the body, the Young Men's Business League directors plan another roasting session in New Lake View hotel tomorrow at noon. It was indicated by members of the organization today.

Reports from several committees which were not delivered at the last session because of so many absentees will probably be called for tomorrow.

CITY FAVORABLE TO CLUB PLANS

Legion Committee Asks Permit to Build

Headed by Guy Hattom, building officer, a committee of Legionnaires appeared before city commissioners this morning requesting permission to make building improvements on the American Legion hut on Lake Shore drive aggregating \$5,000, and asking for the extension of a lease on city property, from Beaumont, to Waco, Tex., and situated south of Lake Shore.

Specifications and plans for the building proposed by the legion were presented the commissioners, and Finance Officer Ben Wiley, acting as mayor in the absence of J. P. Logan, who is in Waco, indicated the request would be gone into by the commission.

The committee of Legionnaires included A. B. Schneider, Louis Dunn, Peter Williams, Hattom, Bill Weatherall and Emmet Welch.

It was understood this morning that if the legion is successful in obtaining a lease extension over city property on the canal banks, that additional athletic facilities will be erected, including two tennis courts.

Foundations Laid For Griffing School

With foundations laid for the new school building in Griffing residential park, workmen are now pouring concrete for the lower floor of the structure. L. W. Abbey, secretary of the school board, said today. Work on the walls of the building will start in about 10 days or two weeks, and present indications are that the school will be ready for the opening of the 1924-25 term next September, Secretary Abbey said.

C. V. SAYER, 38, ELECTROCUTED

Port Arthur Man Receives 30,000 Volts

KILLED IN BEAUMONT

Funeral To Be Held in Houston Tuesday

The body of Clarence V. Sayer, 38, of 2715 Twelfth street, Port Arthur, who was instantly killed at Beaumont Sunday about 4:15 p. m. while working on high power wires, will be shipped out of Beaumont for Houston at 5:15 o'clock this afternoon, and burial will be made there Tuesday.

Sayer came in contact with two electric wires, each carrying 15,000 volts, and his body fell 27 feet to the concrete sidewalk below, according to other linemen working in the rear of the Eastern Texas Electric company plant, Texas and Travis streets, Beaumont, Sunday afternoon.

News See Accident

Although about 15 men were working in the vicinity, none saw Sayer until after a flash of electricity in his direction caused them to look that way, and his body was seen lying on the sidewalk below, officials of the electric company said.

Contact of Sayer's body with the high voltage wires caused the current to go off between Beaumont and Port Arthur for a short time Sunday afternoon until electric supplies could be diverted over other lines between the cities, according to G. Sargel, superintendent in charge of construction, at Beaumont.

Reinforcing Connections

When the accident occurred Sunday, Sayer was soldering connections on a line extending from Port Arthur to Beaumont, but it is not known how he came in contact with the high voltage wires, company officials said. He had been in the employ of the electric company for the past month.

Surviving Sayer is his widow, who is an invalid, and six nieces and nephews. His sister's children, who made their home with the Sayers at 2715 Twelfth street, Port Arthur, Sayer was a native of Harper, Kansas.

NO OKEN VOTE BY FARM-LABOR

Maitre Denies Endorsement Of Candidates

Setting June 8 as the date for the county farm-labor meeting, the Jefferson county farm-labor party, the county farm-labor committee gathered Sunday afternoon at 2 o'clock in the W. O. W. hall, Nederland, for their regular meeting. About 300 committee members from all sections of Jefferson county attended the meeting at Nederland Sunday, and this place was selected for the membership meeting to be held Sunday, June 8, at 2:30 p. m. Henry Maitre, chairman of the Port Arthur farm-labor organization, said today.

Maitre said the county farm-labor party has endorsed candidates for county officers brought strong denial from the committee, and they reiterated that no endorsements will be made until the list is closed to candidates June 12. Maitre said. The county organization has never endorsed or drafted any candidate for county office, the Port Arthur chairman said.

Among the candidates for county officers who spoke before the meeting of the executive committee at Nederland Sunday were Bob Lattimer, of Port Arthur, candidate for county tax collector; Wesley Garrett, of Beaumont, also tax collector candidate; Arthur Leonard and B. E. Quinn, both candidates for the office of county tax assessor; J. P. Young, candidate for county commissioner in Precinct 1; Sam Hays, candidate for constable in Precinct 1; Archie Shaw, Beaumont attorney, planning to announce as candidate for the 6th district court judgeship; and W. E. Lavenport, candidate for county superintendent of education, according to a report from Maitre today.

H. T. Coleman Shot, S. T. Collida Held In Jail by Police

Assault to Murder Charge Filed Against Houston Avenue Man Who Claims He Saw a Man Standing on Porch at Night

A white man, said by police to be H. T. Coleman, 405 Lake Shore Drive, is in a serious condition at the Mary Gates Hospital today suffering from gun-shot wounds.

Sam T. Collida, 1141 Houston avenue, is being held on a charge of assault to murder. Collida admits that he shot at a man on Houston avenue between Tenth and Eleventh streets about 2 o'clock this morning.

"No charges have been filed against Coleman and none that I know of are going to be filed," W. W. Covington, chief of police, said at noon today.

Claims Man on Porch

Collida, in jail this morning, said that his wife awoke him at about 3 o'clock this morning and told him that a man was on the porch. Collida, whose bed is by the window, said he looked out the window and saw a man step down from his porch to the yard.

"I got up, put on my clothes, turned on the light, and the man, which I kept burning all night, and stepped out on the porch," Collida said. "The man was nowhere to be seen, so I went back in the house and got my shotgun and came out again. I saw a man come around from the back of a house near mine and start across Houston avenue. When I took out after him he ran to the corner of Houston and Eleventh street and I yelled for him to stop and put up his hands. He stopped and put his hands up and I lowered my gun and yelled for help. When the fellow saw me put down my gun, he started to run."

"I yelled again for him to stop. 'Don't shoot, I'll give you back the money I took,' Collida said. The man replied as he kept on running. He didn't stop so I shot at his feet to stop him. He didn't stop when I shot the first barrel so I shot the other. The man ran on to Tenth street, where he turned and I didn't see him any more," Collida said.

"The police came and took me to the station after allowing me to dress so I don't know whether I hit the man or not or whether he got anything from my house."

Officers Beckham and Brown of the police force arrived shortly after the shooting. They went up Tenth street but didn't find the man and later went to Eleventh street where they found Coleman, wounded, inside a house, on a bed, they said this morning.

The occupants of two houses near Collida's told the police that three men had attempted to enter their homes by kicking at the doors and declaring they had search warrants for the house. These men were not caught.

Coleman is reported by hospital authorities to be sleeping at noon today under the influence of opiates and his condition is considered serious. He has been unable to make a statement, it was said at the hospital. He is reported to have been shot in the back. Collida said he fired small birdshot at a distance of about 30 or 40 yards.

60 GALLONS OF BOOZE SEIZED

Raids Made on Two Houseboats in Canal

Two raids conducted by officers revealed 60 gallons of corn liquor and a 150-gallon still on two houseboats moored at the canal bank below the planning mill, the police reported this morning.

A white man and a 15-year-old boy are being held in connection with the liquor and still seizures, police said. Both were in jail this morning.

L. B. Johnson, deputy constable; A. L. Bennett, detective, and J. C. Enright of the police force raided the houseboats at about 9 o'clock last night and found 20 gallons of liquor and still accessories.

This morning about 9 o'clock Officer Williams and Fox of the police department raided the boats again and found three barrels of corn liquor and a still. The barrels, which were full, contained 40 gallons of liquor, police said. The liquor and still and accessories were brought to the police station.

City Finance Report Not Yet Announced

The financial report on the audit of city books, being prepared by the firm of Hall & Richardson, certified public accountants from Beaumont, who have been here for some time going over the city's records, had not been received at 2 o'clock today, it was said at the city hall.

The report, due this morning, had not been received at a late hour, and probably will not be presented to the commission until the return of Mayor J. P. Logan, who is in Waco.

KLAN CONTROLS 1000 DELEGATES

Sentiment Apparent to Unseat Tom Love

ALVA BRYAN FAVORED

Pre-Convention Gossip Sees Hanger Victor

Special to The News. WACO, Texas, May 26.—The vanguard of over a thousand delegates has already gathered to make medicine for Tuesday's state democratic convention. Leaders, sub-leaders, and would-be leaders of factional movements milled around the lobby of the Hanger hotel all day Sunday, and in hotel rooms arrangements were made for final caucuses Monday previous to the convention opening.

What It Looks Like

Sunday's post-words made reasonably clear the following:

1. That a majority of the delegates will be members of the klan.
2. That there is a growing sentiment to unseat Tom Love as national committeeman and put in his stead Alva Bryan, attorney of Waco.
3. That a caucus of klan leaders held in Dallas last Friday had pretty well determined that the klan will name a majority, perhaps nine-tenths of the 40 delegates from Texas to the New York convention.

4. That Tom Love will find himself unable to control the majority of the convention in his effort to prevent Alva Owsley from obtaining a (Turn to Page 2, Column 2.)

DELEGATES HERE LEAVE FOR WACO

15 County Votes Pledged To McAdoo

Jefferson county and Port Arthur's delegates to the state democratic convention which opens up at Waco Tuesday morning have gone to the central Texas city, some departing Sunday night and others Monday morning.

"That a large number of the 38 delegates selected at the county convention held at Beaumont, May 7, will not be able to attend the convention was indicated today. Jefferson county's 15 votes will be cast by representative and capable hands, democratic county leaders said today.

The 15 votes from Jefferson county are pledged to W. G. McAdoo for president of the United States. The delegates from this county are also pledged to vote "dry" support Earl B. Marfield for senator and favor the county's ratification amendment at the Waco convention.

It is the high hopes of the Port Arthur, Beaumont and other democratic delegations of the county that one of the "immortal 40" delegates to the national convention to be held at Madison Square Garden next month will hail from Jefferson county. It is on this point that the entire county delegation is agreed on. It is believed the delegates from this county will not together before the convention tomorrow and choose one man or woman from Jefferson to fight for against all odds to be a national convention delegate.

KILLED IN DUEL

State Officer Slays Rural Mail Carrier

LAWTON, Okla., May 26.—One person was killed and two others injured, one seriously in a revolver battle here Sunday.

J. L. Lee, rural mail carrier was killed with his own gun by J. L. Jackson, 60, state officer, after Lee had wounded Jackson and his wife. The shooting resulted from a shanty reply given Lee by Mrs. Jackson, officers said. Lee shot the woman through the arms and turned the gun upon Jackson, shooting him twice through the body. The husband wrested the gun away from Lee and emptied it into the mail carrier's body with fatal effect. Mrs. Jackson will recover.

British and French Rivals For Terrible War Machine

Which Blasts Airplanes, Kills Stuns Whole Peoples

By United Press. LONDON, May 26.—Behind doors that were barred and locked—and heavily guarded a death-dealing ray invented by Grindell M. Matthews was tested in the presence of air ministry officials today.

The death ray claimed as a terrible weapon of destruction in case of war, was then offered to the British government in exchange for financial support of the inventor.

A representative of the air ministry went at once to report to the cabinet concerning the success of the demonstration.

If the government does not support Matthews, he will go into partnership with a Frenchman at Lyons and the invention will pass into the control of France.

The inventor has declared that although he is an Englishman, he will sell the secret to France if financial support is not forthcoming from his own government.

Meanwhile, the French firm of Clantiers Durban of Lyons, which has been negotiating with Matthews, claims to have learned his secret and to be able to produce the death ray regardless of whether it is sold to England or France. Matthews denies this.

The inventor's claim for his death ray is that it can kill, or stun human beings at a distance of between six and ten miles; that it could be put out of commission the machinery of an enemy fleet approaching the English coast although it would not sink battleships—that it can bring down in flames airplanes with which it comes in contact and that a chain of forts equipped with machinery for transmitting the deadly ray would prove a perfect defense to England against airplane attack.

WARNINGS HOISTED FOR SMALL CRAFT

Indications that moderate to fresh southerly winds will blow into the Texas coast today, accompanied by thunder showers, brought orders from New Orleans for small craft warnings to be hoisted. Ernest Carson, U. S. weather bureau observer here, said today.

The warning came out of the New Orleans station at 8:30 a. m. and was signed by Cline Carson, said today.

THE NEWS' SOCIAL AND HO

Mrs. Travis Holland's Bridge Is Lovely Event Honoring House Guests

LOVELY in all its appointments was the attractive bridge luncheon Saturday afternoon, having as gracious hosts Mrs. Travis Holland, and arranged in compliment to her land's guests, who are enjoying a delightful stay at home, 643 Sixth street.

Guests of honor, the air experts, who are here on a mission, but have become to the Japanese the most interesting men in the world. While the Japanese aviation laws are being discussed in America don't forget this:

With Germany crashed in a military way, with the Jap air force with England at an end, with strained relations with the United States, the Japanese are being discussed in America don't forget this:

Japanese military men swarm in France. When Lieutenant d'Oisy hopped off from Paris on his trip to French Indo-China, the biggest crowd of military experts to bid him goodbye were Japs.

And it was they who urged him and his government to continue the flight from Hanoi to Tokyo. They want to see how it is done. They want to examine the machine when it lands in Japan.

And they may buy a lot of them because those same machines could hop off from Japan well-towards America.

Lieutenant d'Oisy as early as May 6, the twelfth day of his journey, had set a new world record. In that time flying by way of Bucharest, Angora, Tashkent and Bouchir, he had landed at Calcutta 6,500 miles away in 12 days. He made the distance from Karachi to Agara in India, 851 miles, in less than seven hours. He flew from Agara to Calcutta, 750 miles, in six hours and a half.

Lieutenant d'Oisy is using a regular army machine. It is known as a Breguet 15-A-2, furnished with 100-horsepower motor of 400 horsepower. It can carry a pilot and mechanic and 450 kilograms of useful weight, 900 liters of gasoline and an appreciable quantity of oil.

Under such conditions the machine is able to do 200 kilometers per hour without trouble. It is made of duralumin.

For his great trip d'Oisy only had a reservoir of gasoline substituted for the bomb-throwing apparatus. As the Frenchman has far exceeded the performance of the American to fly around the world, the French government is confident that French and British aviators, who are seeking aviation companies will soon get his orders from Japan for machines for the army and navy.

Lieutenant d'Oisy, who has made himself the hero of the hour, is 32. At 15 he was transferred to the aviation service and in 1913 he was made a pilot.

Just before the war he made a flying tour around France. When war broke out he joined Farman's squadron. He soon won the military medal for extraordinary bravery. Later he brought down four enemy airplanes, was cited twice in the army orders and made member of the Legion of Honor.

Rev. Yelderman Paints Vivid Pictures Before Graduating Class—Rev. Weidner Presides at Service

To Jeff Davis

Taking his message for the evening from an old gray haired soldier who had fought in many wars, who knew the joy and ecstasy of the victory and the drama of defeat, and who wrote these words as a heritage to the following generations: "For the things that are seen are temporal but the things that are unseen are eternal." Rev. R. Yelderman delivered a stirring address to the graduating class of 24 of Port Arthur High school at Franklin auditorium Sunday night.

"My message to you this evening be titled 'Invisible Kings'." Rev. Yelderman declared. "The world has grown weary of visible kings. Glance over the history of the empires who gloried in kings. They are no more. But the whole world will never tire of invisible kings."

"Jesus Christ has said, 'It is written: man shall not live by bread alone.' More lives have been made by the invisible king—the strange, some-thing one cannot feel and from lack of descriptive language is known as ideal. Let me call it the invisible king."

"I believe I know the book of human life well, and I have found that young and old cannot get along with an invisible king—your ideal—for it will make you if it is right; but if wrong it will mar and break your life."

Rev. Yelderman illustrated his talk by four word pictures: the first from the book of God, in which he showed the graduating class that Moses, turning his back upon riches and luxuries of Pharaoh's palace made his decision and chose the hardships of the people, thereby crowning his invisible king—his ideal of right, truth, honor and justice. He never forgot his decision and the world today has not forgotten Moses.

The second picture was taken from the book of literature, and here Rev. Yelderman gave a vivid picture of Jean Valjean from "Les Misérables." He told of how Valjean, after becoming a man of wealth, was forced to choose between riches on one side and on the other side the galleys and his ideal of honor justice and truth. But in the end he crowned his invisible king.

The third picture was given from the book of human life, in which the speaker showed the determination and struggles of a small lad to make good. Today that lad, grown to manhood, is the greatest criminal lawyer in America—Martin W. Littleton.

Pilgrims of Today These words, "Son, if you ever study law and become a lawyer, determine to be the best there is," are the words that made Martin W. Littleton, according to Rev. Yelderman.

The fourth and final book was taken from the book of war, the fieriest hell of war. The speaker told the story of a little boy who gave his life to save a sacred fount in the Rheims cathedral, while the Germans were bombing it during the world war.

"The people of Rheims honor and revere him today because he gave his life for something he loved," stated the speaker. "He crowned his invisible king and his invisible king lives after him, though he is dead."

"Members of the class of 1924, these are wonderful days in which you are living. As you go forth on the highway of life you can be a pilgrim of light or a pilgrim of darkness. If you go forth as a pilgrim of darkness and lose sight of the things eternal and the invisible king it would be better that you were never born—but if you go forth as a pilgrim of light, you shall be a blessing to your fellow men."

With these words and a quotation from Ella Wheeler Wilcox, "We build our future, etc." Rev. Yelderman closed his address.

Rev. C. E. Weidner of the Congregational church presided during the service.

They do not care if the depot goes. They both refused to contribute to the purse to fight the case.

"They are just making a lot of noise to hear their head ring," said R. E. Brownbridge, caretaker of the depot, with considerable show of feeling. Owing to lack of business the agent was removed from Twin Lake a year ago. Since that time only a caretaker has been in charge. Over at Brunswick business has increased and a larger depot is desired.

Railroad officials were here recently and measurements were taken and plans were made for the removing of the depot.

Two Are Indifferent They might as well close up the town as move the depot," said George W. Freeman, postmaster. Two Twin Lake men have stated in public that

PACIFIST ROUSES PRESBYTERIANS

To Jeff Davis

Then Veteran Takes Scoot Divine to Task

WOODSTOCK, Ont., May 26.—"I think we would be immensely further off if these noble men like Col. Beattie had never gone to war at all," said Dr. Macintosh during the course of a debate on the acceptance or rejection of pacifism by the church at the convention of the Presbyterian Synod of Hamilton and London here.

"I think it is time for men to rise up and say: 'We played the fool; we wrecked not only our material fortunes but moral ideals.' You talk about Germany going through with armies. If we could just stand on our dignity and say that we are reasonable men, we do not believe in war, and make our appeal to these nations—they are reasonable nations—the same as ourselves—it would be the very best way to turn back these armies, instead of showing light and knocking chips from their shoulders," he asserted.

Resented by Veterans The remark of Dr. Macintosh, London-Ontario Presbyterian clergyman, was provoked by the resentment of Col. William Beattie to one of the four clauses in an overture from the London Presbytery, asking consideration of the "excommunication and outlawry of war."

Col. Beattie was former head of the Canadian chaplain services. He opposed in particular the statement of several of the clergymen that Canada's sacrifice in the great war was all in vain.

In proposing reconstruction of the clause, which read:

"That the time has come for all organizations, either religious or civil, existing in the interests of human welfare, to consider the wisdom of proclaiming excommunication and outlawry of war as a method of settling international disputes," Col. Beattie said:

"I would like to ask how the troubles that came upon Europe would otherwise have been met."

"It would have been simple for France to put lands in gullets and say, 'All right, Germany, come on.' We all outlaw war as a common sense method of doing things. I carried away the sense of the utter silliness of the thing from that standpoint."

High-Ups Hate War "Some one said a few minutes ago that the men higher up were creating war. Let me say the men higher up hate war as men in this syndicate the devil, but they have to carry it out. It was because these were men like Lord Roberts, a Christian gentleman, and Lord George, who on that 4th of August counted the floods of gold and rivers of blood, but counted also the liberties which you and I today enjoy, that they sent their armies in the field."

"God forbid that it should again be necessary for us to call upon our men, but to proclaim the excommunication and outlawry of war under all circumstances, I simply won't do it."

High-Ups Hate War "Some one said a few minutes ago that the men higher up were creating war. Let me say the men higher up hate war as men in this syndicate the devil, but they have to carry it out. It was because these were men like Lord Roberts, a Christian gentleman, and Lord George, who on that 4th of August counted the floods of gold and rivers of blood, but counted also the liberties which you and I today enjoy, that they sent their armies in the field."

WASHINGTON, May 26.—A Texas plainsman of the old pioneer type has arrived here to ask Congress for \$17,000 to reimburse him for expenses he incurred in one of the most dramatic single-handed man hunts in the country's criminal annals.

The Texas was J. Frank Norfleet of Hale Center, who trailed a gang of bunco men for five years and finally landed all of them behind prison bars because they had fleeced him out of \$45,000.

Norfleet will confer with Representative Marvin Jones, of Texas, who probably will sponsor the bill to repay him the \$17,000 expense money.

The men who were arrested and sent to jail for long terms through Norfleet's tireless chase were Joe Furay, Edward Ward, Reno Hamilton and Charles Gerber. Furay and Gerber are dead; the former having died in the Texas State Penitentiary.

The hunt for the swindlers led through many states and finally ended in California. Gerber and Ward were arrested in San Bernardino and Furay was caught in Los Angeles.

Attendants Are Comited While awaiting trial in Los Angeles, Furay escaped from the county jail. A year later two jail attendants, Walter Lippa and W. J. Anderson, were tried on a charge of having accepted a \$10,000 bribe to permit the prisoner's escape. They were convicted and are now serving sentences in San Quentin prison in California.

Mrs. Travis Holland's Bridge Is Lovely Event Honoring House Guests

LOVELY in all its appointments was the attractive bridge luncheon Saturday afternoon, having as gracious hostess, Mrs. Travis Holland, and arranged in compliment to Mrs. Holland's guests, who are enjoying a delightful house party at her home, 433 Sixth street. The guests of honor included Mrs. Holland's daughter, Mrs. C. W. Redman, Mrs. B. W. Steele and Mrs. Oscar Holcomb of Houston, Miss Nita Noble of Corsicana and Mrs. Schubert Fuller of Beaumont.

The living room and the porch, where the tables were arranged for the charming affair, were filled with the fragrance and beauty of gorgeous sweet peas, beautiful magnolias and lovely roses, displaying a pea green motif in combination with the delicate pastel colorings.

Luncheon was served at one o'clock, the tempting two course menu being served on prettily decorated trays, which were centered with a pretty French lady, attired in an exquisite pea green taffeta frock. Following the games the guests cut for these lovely dolls as table favors.

Bridge table appointments also reflected the favored motif and in the games Mrs. John W. Tryon received the prize for high score and Mrs. A. N. Peckham was awarded the second favor. Handsome guest prizes were awarded each guest of honor.

The personnel of the gracious hospitality included: Mrs. C. W. Redman, Mrs. W. B. Steele, Mrs. Oscar Holcomb, Miss Nita Noble, Mrs. Schubert Fuller, Mrs. R. L. Drake, Mrs. Horton Drake, Mrs. Armstrong of Houston, Mrs. George Westbrook, Mrs. W. G. Ashton, Mrs. B. H. Vaughn, Mrs. Fred P. Dodge, Mrs. A. N. Peckham, Mrs. C. G. Westmoreland, Mrs. G. C. Barker, Mrs. J. A. Eideles, Mrs. Harold M. Hoe, Mrs. Smith of Port Neches, Mrs. Sydny Collier, Mrs. Alfred Brooks of Port Neches, Mrs. F. A. Criss, Mrs. W. N. McRaymond, Mrs. G. H. Eubank, Mrs. John W. Tryon, Mrs. Pat Reed, Mrs. A. S. Houston, Mrs. E. H. King, Mrs. D. P. Skeels, Mrs. B. E. Harrington of Joplin, Mrs. Dick Allie, Mrs. C. L. McIver, Mrs. Vivian Perote, Mrs. E. L. Canada, Mrs. W. P. McFarland, and the hostess, Mrs. Travis Holland.

C. E. SOCIETY TO MEET TUESDAY

The executive committee and members of the Christian Endeavor Society of the First Christian church will meet tomorrow evening at 7 o'clock at the home of Mrs. Henry P. Focke, 1830 Ninth street.

A number of important business matters will be discussed at this session and a delegate to attend the state convention at Austin will be elected.

All officers and members of the C. E. Society are urged to attend the meeting.

REDWING COUNCIL TO MEET TONIGHT

Redwing Council, Number Ten, Degree of Pochontas will meet this evening at 7:30 o'clock at the K. I. Hall. All candidates are requested to be in attendance, and several important matters are to be discussed.

Women Need Not Grow Old; New Invention Keeps Them Young

By MORTENSE SAUNDERS
NEA Service Writer
NEW YORK, May 26.—"Grow old along with me," sang Robert Browning, the poet.

But women turned a deaf ear. "Stay young along with me and the rest of your contemporaries," utters the modern maid doctor.

And women are all attention. "By staying young, I do not mean stay 18," explains Dr. Herman H. Rubin, who has worked two years to perfect his radiendriolator for gland stimulation which is arousing much interest in New York.

I mean stay at the point of your highest mental and physical development.

"The average woman is still young looking and well preserved at 35 or 40. She should not aim to look younger, like a flapper, but she should keep at that point and grow no older. This can be done."

Gamman rays of radio-active elements are the means toward this end, the doctor believes, and translated into less technical language, his theory means that we recharge the human cell batteries, occasionally, that supply the electric force necessary for each body cell to function properly.

"In a less complicated age than ours, when we didn't all try to crowd so much into one lifetime, nature attended to the recharging of our human batteries," he continued.

"Now most of us deplete our nervous energy and strength faster than nature can supply it, and unless science contributes power, we must break. We know we age because our glands deteriorate.

"These glands may be restored not necessarily by the transmutation of

DR. HERMAN H. RUBIN DEMONSTRATING THE RADIENDRIOLATOR.

human or animal glands, as was once believed, but by stimulation applied scientifically.

Dr. Rubin makes no extravagant claims for his new machine, he is introducing, but he does assert that that of his patients have been made younger a dozen years by it, and that they have been able to work at a tension quite impossible under normal conditions, and to look unharmed while doing so.

He admitted that more women than men availed themselves of his invention.

Capt. and Mrs. Borden Hold Open House

CAPT. and Mrs. F. S. Borden entertained their numerous friends by holding open house and guest day on the U. S. Coast and Geodetic ship *Bache* Saturday afternoon between the hours of 2 and 5 o'clock.

More than one hundred invitations were issued and the guest book for the day registered eighty guests.

The captain's cabin and the officers' ward room were given a homelike and feminine touch by a profusion of dainty sweet peas and gorgeous dahlias in tulip decorated baskets.

The guests were escorted to the captain's cabin by Lieut. (j. g.) T. B. Reed, officer of the deck, where they were received by the host and hostess. After registering with Mrs. L. C. Wilder, in charge of the guest book, the guests were accompanied to the officers' ward room by the hostess, where they were served delicious orange punch and cake. Mrs. W. D. Patterson, presided at the punch bowl.

Chief Engineer Conover pointed out to the guests the various features of the officers' ward room and explained the displayed pictures of the foreign travels of the officers in the Philippine Islands, China, Japan and the Hawaiian Islands and also in Alaska.

Lieut. Wm. D. Patterson conducted the guests to the deck where he exhibited the surveying instruments and showed them the various features of the ship and its work in detail. An interesting feature was the chart room, where Lieut. (j. g.) L. C. Wilder explained the various stages in the making of a finished chart.

The guests present were Mrs. E. L. Welch, Mr. and Mrs. E. H. Clements, Mrs. Beth Ismire, Mrs. T. B. Bradberry, Mr. and Mrs. N. T. Fuller, Mrs. Florence A. Meek, Mrs. F. J. Fond, Mr. and Mrs. Wilbur M. Abber, Mr. and Mrs. John Beshara, Mr. and Mrs. D. O. Douthett, Mr. and Mrs. J. Beard, Mr. and Mrs. S. W. Savage, Mr. and Mrs. Alfred Butcher, Jr., and son, Mr. and Mrs. J. R. Nevius, Lieut. (j. g.) and Mrs. Charles M. Thomas, Mr. and Mrs. G. E. Carter, Mrs. Jay Whelpley, Mrs. G. M. Woodworth, Mr. and Mrs. R. E. Camp, Mr. and Mrs. W. S. Green, and daughter, Elsie, L. James Jones, Charles H. Jones, Mr. and Mrs. Earl Borden, Mr. and Mrs. F. N. Hodges, Mr. and Mrs. R. B. Camp, Mrs. Charles Jones, Mildred Borden, Mr. and Mrs. C. R. Moore and daughter, Bernice, Mr. and Mrs. F. M. Harle, Mrs. L. L. LeMaster, Mrs. H. K. Goodwin, Mrs. P. H. LeGrove and children, Marvin, Max and J. J. Jr., C. S. Howell and daughter, Elsie, Mrs. Leo C. Wilder, Mr. and Mrs. Joe W. Loper and son, Joe, Jr., Mrs. W. J. Adams, Mrs. T. Alvis Davis, Mrs. J. N. Payne, Mrs. Al F. Hales, Mrs. Riley McFadden, Miss Cleone Hill of Waco, Mrs. W. D. McFadden, Mrs. Wm. D. Patterson, Lieut. W. D. Patterson, Chief Engineer Conover.

The Tangle

LETTER FROM BEATRICE GRIMSMAW TO RICHARD SUMMERS

MY DEAR DICK: I haven't answered your letter until now because I wanted to think about it. I wanted to think it over carefully before I committed myself to paper.

I knew you are smiling as you read this first sentence. You are saying to yourself: "Free is always so serious about everything." I think that is my misfortune, but to me the renewal of our relations, or even our friendship, is a serious thing.

I do not mind telling you that I thought I would never recover from the hurt you gave me in the letter you wrote me before the last. It overthrown all my ideas of living and loving. You see, Dick, I had always thought that when a man acts as a woman to be his wife, he was sure that he cared for her more than any one else in all the world; and when she told him that she would be his wife, she set herself apart quite as much as though already the marriage lines had been read for her.

An old-fashioned idea, isn't it? And I now am satisfied that no man ever has any particular feeling of responsibility toward the woman to whom he is engaged.

I don't understand why your feelings have turned back to me, Dick. Have you become tired of Miss Perrier? Oh, don't shake your head and say that you never were in love with Mrs. Perrier, because if you told the truth you would say that you were absolutely infatuated with her.

I hate to feel that you are fickle. I even hate to feel that having become tired of me you are now tired of someone else, and that you will go through life having a series of romantic episodes which will become less and less emotionally satisfying as time goes on. You see what I really am regretting is my ideal of you.

The reason I'm saying all this to you, Dick, in this letter, is because I cannot make up my mind to put myself in a position where I may be hurt as greatly as you hurt me.

You see, I haven't any particular pride in this matter. I do not think it a time for pride. I loved you deeply. I shall always love you. But I have grown calloused to the hurt that you gave me, and I don't want to tear open the wound again.

You say no one has rested you as I. That may be true. But I am afraid, Dick, that I am not one of those women who are content to be a kind of doll with a man, who, with a while and then looks away in a bureau drawer while he goes out and plays with other dolls until he's tired, always secure in the knowledge of what is in that locked drawer he has.

Lieut. (j. g.) T. B. Reed, I. Rittenberg, J. A. Kibler, W. G. Crab and Chief Engineer Marshall.

Shriners Meet Tonight To Complete Tour Plan

Shriners from Port Arthur and Beaumont will meet tonight at Max Jones headquarters here and complete final arrangements for the trip to be taken by El Mina Temple members to the annual International Shrine convention which begins next Monday at Kansas City.

Plans for the St. Mina Patrol composed of local and Beaumont Shriners, to make the trip were abandoned when it was learned Sunday that the El Mina band would not be able to make the trip. The patrol had counted on the band and announcement from Galveston that it would make the journey was a disappointment.

The patrol members will decide tonight on which route they will make the trip. The patrol is in receipt of an invitation from Shreveport, La. to make the trip there in company with the Louisiana Shriners on the latter's special train. Should this invitation be accepted the patrol will leave Saturday night and spend the day in Shreveport participating in special exercises.

The other routes will be either over the Kansas City Southern or Santa Fe lines.

New York state ranks first in the manufacture of gas, reporting 21 per cent of the United States production in recent years.

Proper Use of Color Liven Up a Room

The proper blending of color in the furnishing of a room is what furnishes life and vim to the surroundings.

Without color a room would look either over-bright or dull and drab. Color is what tones down the brightness of monotonous sunlight or brightens up the gray, heavy feeling of a dark room.

But color can easily be overworked. It needs an intelligent understanding of color and its possibilities to make a room look beautiful and inviting. Without that a person who naturally leans to one tone and doesn't understand its significance might overdo the house with that color.

Color properly originates in light. The bright sunlight is really a mixture of all the colors on earth. More properly, all colors are derived from the bright sunlight.

Therefore, in choosing a colorful piece of upholstery or curtain, you can tell its true tint only under bright sunlight, where it is in its natural element. The yellow electric light shows another but the true color.

Chief Pigments

White sunlight may be divided into three primary colors—yellow, red and blue. From these, in proper proportions, come all other colors, tones, tints and shades, from the brightest to the graviest. White and black are not colors, but they mix with the colors or their derivatives to make further tones or pigments.

All colors or tones are divided into two classes—the warm or advancing colors, and the cool or retreating colors.

Yellow, orange, red and their derivatives are the warm, advancing colors. Blue and green and their derivatives are the cool colors. Violet is a neutral tone.

In Practice

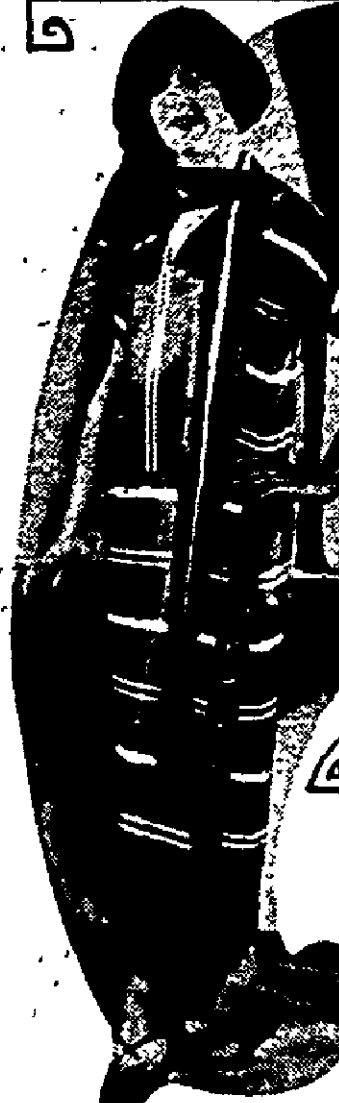

This must be remembered especially:

Have Good Hair And Clean Scalp Cuticura Soap and Ointment Work Wonders

They give you health, bodily comfort, ease of digestion, free elimination, an active liver, a clean scalp, moist hair, a healthy complexion and an alert, contented mind in a vigorous, well rounded body.

Sold everywhere—only 25 cents.

Black and White

Black and white striped satin, such as this, is so decorative in itself that even cut on the simplest lines it takes on an elaborate air. Here the stripes go round on the skirt and under the arms but go up and down on the sleeves and front. Six wide tucks at the hem, a few steel-colored buttons and a tasseled scarf are effectively used.

WALLOH CAMP FIRE MEETS SATURDAY

Members of the Walloh Camp Fire and their guardian, Mrs. L. P. Despit, met Saturday afternoon at the K. C. hall. Announcement was made that a sum of \$61 was cleared on the card party held last week. After being divided among the girls it was found that this sum will pay over half of the expenses of the Walloh Camp Fire girls for the summer camp. The Knights of Columbus have offered to take the girls to the summer camp in their automobiles. The camp is situated about 44 miles north of Orange.

The girls voted to hold their regular meeting days on each Thursday afternoon at 4 o'clock, during their vacation days.

Saturday's meeting Mrs. T. A. Houston organized her campfire with the following girls in her camp: Virginia Adolphus, Marie Berlin, Gertrude Worm, Olive Worn, Odette Lauchlin, Beale Shelton and Lois Krohn.

Those present Saturday were: Lucille Breaux, Isabelle Billeaud, Louise Marshbanks, Effie Mosier, Clara Rogers, Leon Rogers, Florence Bamberg, Rosemary Stahl, Ada Vandegriff and the guardian Mrs. Despit.

WOMAN'S AUXILIARY TO MEET TOMORROW

The Woman's Auxiliary of the Central Baptist church will meet tomorrow in all-day session at the home of Mrs. T. E. Cannedy, 1110 DeQueen boulevard.

The missionary program will be presented during the morning session and a delicious luncheon will be served at noon. The afternoon hours will be devoted to the business session.

PORT ARTHURIANS ATTEND REUNION

Mr. and Mrs. R. H. Wiley and family, Mrs. R. J. Rich, Mr. and Mrs. E. R. Rich and Mr. and Mrs. S. R. Nick and family, all of Port Arthur, motored to Liberty yesterday to attend a reunion at the home of J. M. Rich. Dinner was spread beneath the large shady trees about the Rich home. Others enjoying the reunion besides those from Port Arthur were Amos Rich and family of Newton, Mrs. N. W. Murphy of Dallas, Mr. and Mrs. E. C. Land and family of Liberty, Elv Rich and family of Liberty, and Mr. and Mrs. J. M. Rich of Liberty.

HUGH McPHILLIPS ENTERTAINS

Master Hugh McPhillips entertained with a delightful bathing party at the beach yesterday. The little folk, chaperoned by Hugh's father, H. H. McPhillips, motored to the beach, and after an enjoyable day were served lunch on the beach sands.

Those participating in the outing were Eva Allenwood, Lena Jenkins, Bessie Lee Davis of Sabine, Lloyd Jenkins, Tom Sheffield, of Mobile Ala., Hugh McPhillips and H. H. McPhillips.

MRS. SUTHERLIN'S S. S. CLASS TO HAVE PICNIC

Mrs. E. B. Sutherland's Sunday School Class of the First Christian church will enjoy a picnic at the Sutherland home in Griffling Friday afternoon.

The young people have been requested to meet at the church at 1:45 o'clock and will take the 2 o'clock bus to Griffling. A picnic luncheon will be enjoyed during the afternoon, and a delightful outing will be held.

COUNCIL OF JEWISH WOMEN TO BE ENTERTAINED

Mrs. I. Wiener will entertain the Council of Jewish Women Wednesday afternoon at the park in Port Neches. The women, who are planning to attend are requested to telephone Mrs. Wiener at telephone 3800. Automobiles will be provided for all who wish to attend. The women are requested to meet at the Lions Park Wednesday afternoon promptly at 1:30 o'clock.

When It Comes Right Down to Cases—What Is True Economy?

You, Mrs. Homemaker, who administer the family finances, have to be on the alert to avoid being taken in by "bargains" that are false economy.

Cheap cleaning methods, for instance your family's fine garments may be irreparably ruined by them. Far better it is to have them handled by a modern Laundry with the best of equipment, that employs experts.

Phone Us In The Morning

THE HOME LAUNDRY

Phones 118 and 119

It is a well-known fact that Port Arthur will not, cannot grow faster or greater than its business interests. Business is the very life blood of the town. If that blood is pumped vigorously through the city's arteries the city is certain to grow and prosper.

It is up to all of us to do our share. We must put our shoulders to the wheel of progress if we would see Port Arthur take its rightful place in the sun. We must encourage local business.

Have you ever seen a heavy vehicle stuck in a rut of mud? A dozen onlookers—some merely waiting to see what is going to happen—others giving advice. But none of these start the vehicle moving.

Then from the crowd step out three or four "doers." They put their shoulders to the wheel, lending both effort and example until others follow them. The thing begins to move—gains momentum as all things do when once out of the rut.

So, it is up to us to set the example in Port Arthur. Let us begin by patronizing local interests. Let us put our shoulders to the wheel!

ADVENTURES OF THE TWINS

By OLIVE ROBERTS BAXTON

The Twins start out to collect the things.

One day Mrs. Cracknuts telephoned to the store for some groceries.

"I want two cents worth of soap," she said, "and one cent worth of tea, and five cents worth of butter, and a loaf of bread and a pint of maple syrup."

"I'm sorry," said Nancy who had answered the telephone for Mister Bags, "but we haven't a drop of maple syrup left."

"Oh, dear!" cried Mrs. Cracknuts. "I'm sorry about that. I just took a walk some last night and I thought I couldn't wait for the store to open this morning. I see to Daddy, I see, Daddy, the minute Mister Bags' store is open tomorrow, I'm going to telephone for some maple syrup. It seems to me I can smell it. I want to be sure."

"I'm ever so sorry," Mrs. Cracknuts said. "Is there anything else?"

"No, I guess not," said the squirrel lady in a disappointed voice.

"All right," said Nancy. "Thank you, Mrs. Cracknuts."

Mister Bags got the groceries all ready and put them in a basket and the twins started out to deliver the things to Mrs. Cracknuts who lived in Maple Tree Flats.

They walked up to the stairway inside of the big maple tree (their maple shoes made this very easy) kitchen door.

"Come in," called the squirrel lady, "just put the groceries on the table, please. I've got my hands in the dishwasher."

"Certainly," said Nick, opening the door and laying out the bread and butter and everything on the nice clean kitchen table.

"When will Mister Bags be having more maple syrup?" asked Mrs. Cracknuts.

"I don't think he'll be having any more," said Nancy, "because it's getting late in the season, he says, and the syrup has all run out of the maple trees."

"Well, I'm sorry," sighed Mrs. Cracknuts. "The one thing that Daddy and I love better than anything else is maple syrup. I just feel as though I couldn't stand it to have to do without it. There! Thank goodness those dishes are done. I'm hurrying to get through, for the paper-hanger is coming. Something has leaked through my walls and made them all damp."

"That's too bad," said Nancy. "Why, it's running down onto the floor, too. It's all over your floor, Mrs. Cracknuts, and it's sticky."

"Sticky?" almost shrieked Mrs. Cracknuts. "Whatever can it be?"

"She rushed over to the wall where a tiny stream of clear stuff was trickling down. First she sniffed and then she tasted. And then she almost fainted for joy. "It's maple syrup," she said weakly. "There must be a whole tank of it in my wall."

"Oh, dear! How lovely!" cried Nancy.

"I'll make a stopper so it won't be wasted," said Nick. And he took a little piece of wood and stopped the hole.

Daddy Cracknuts and his wife had enough syrup to last them all summer, and enough for company too. Don't you wish you lived in a maple tree?

CHILD'S STORY OF THE HUMAN RACE

By Uncle RAY

WINTER HOMES IN CELLARS

How would you like to live in the cellar?

I'm certain, you wouldn't like it for long.

The Germans had cellars under their huts, and many families spent part of their time during the winter months under ground.

German houses were not very well built. The chill winds of winter came through the log of woven twigs. That is why the family went into the large holes dug beneath the huts.

There were no window-panes to let light in the cellars. The Germans probably got most of their light from torches. No doubt there were a few small holes which let in fresh air. Fires were built in this lonely home. The women spent their time spinning thread, weaving cloth or sewing. Sometimes they cooked.

The men lay besides the fire, sleeping a great deal of the time. While awake, they talked to one another, drank beer, and gambled.

Ah, yes, they gambled! It seems no men were ever fond of gambling, than those rough Germans. They gambled away their cattle and sheep, their spears and shields. It is said they even risked their wives and children on the dice fall. In some cases, it appears, they let themselves go into slavery because they had lost a game.

German men did not like common work. We can be sure the women and children had to do the chores. We can picture in our minds boys creeping out of the hot cellars on bitter cold days to feed the horses, cows and chickens. Now and then men went outside to hunt.

On mild winter days, the family must have moved to the hut above. It was no great fun to stay down in that ugly cellar. What joy must have been in the hearts of all when spring came back to earth! The free life of the outdoors could then be lived once more.

When the Germans moved into better homes in England, they built better homes. The warmer climate of the southland meant that men did not need to live in cellars any more. The Franks sometimes lived in groups of houses with a very high house at the center. Such they gambled away their cattle and sheep, their spears and shields. It is said they even risked their wives and children on the dice fall. In some cases, it appears, they let themselves go into slavery because they had lost a game.

A group of homes and huts used by Franks. After settling in France, these Germans quit living in cellars during the winter.

Color Cut-Outs

POLLY OF THE MOVIES

A regular "movie queen"—that's Polly. She is the star of the Cut-outs' make-believe movie, "Belle of the Plains," that they're making out in the backyard, with Black acting as cameraman and director.

Polly hasn't her cowgirl costume fixed yet, so she's rehearsing her part in her little yellow linen dress. She's to pretend she's been lost out in the desert. Her horse run away with her and it's just been found out that she's missing. So all the cowboys will jump on their horses and ride out to find her. Of course, they have only one horse to rehearse with, so they'll all take turns jumping on him and riding away.

Tomorrow Polly will have her cowgirl costume ready.
